

ABHINAYA

FULL STACK DEVELOPER >>>>>

PROFESSIONAL SUMMARY

I'm a PHP developer who loves creating dynamic and scalable web solutions. I recently completed training in the MERN stack, where I built a full-stack project that really sharpened my skills in modern development. I'm passionate about writing clean, efficient code and delivering applications that are user-friendly. I'm excited to bring my PHP and MERN expertise to a forward-thinking team, where I can adapt to new challenges and keep learning to stay updated with the latest in web development.

PROFESSIONAL EXPERIENCE

FREELANCER DEC 2021 - PRESENT

- Built ERP systems, custom CRMs, dynamic websites, and revamped existing sites.
- Developed an e-commerce site and basic ERP in MERN stack.
- Integrated payment systems and delivered end-to-end client solutions focused on efficiency and modern standards.

MELON VENTURES Pvt Ltd

JUNE 2021 - NOVEMBER 2023

PHP Developer Lead

Developed secure, scalable PHP-based backend systems that integrated smoothly with frontend tech and databases. Led a team to build complex web apps, including an admin system for payroll and a user activity tracker. Managed server configurations with regular monitoring and tuning for optimal performance. Implemented backup and recovery strategies to protect key data and enable quick restoration when needed.

ADSYZGY Pvt Ltd

JAN 2020- MAY 2021

PHP Developer

Regularly tested and debugged software to uphold the integrity and performance of web applications. Designed and implemented an in-house CRM system using PHP to streamline employee activity tracking, ultimately achieving a 12% reduction in workload. This tool improved efficiency across teams, reduced manual tasks, and optimized our tracking process.
